

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

HARVARD COLLEGE LIBRARY

JUN 30 1915

CHARLES ELLIOTT PERKINS
MEMORIAL COLLECTION

Entered according to Act of Congress in the year 1881, by

FRANK M. CAYTON,

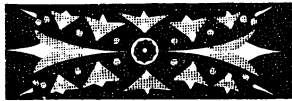

In the office of the Librarian of Congress at Washington, D. C.

NOTE.

In presenting this book to the public it is not assumed by the author to be perfectly correct in every particular, but it so closely approximates a correct list of landings, and the distances between the respective localities named, that a plantation, a store or mail-landing can be much more easily found by this River Directory than by any Guide known to be published up to the present time. The landings on the Mississippi River, between St. Louis and Baton Rouge, are arranged in rotation and in sections. Below Baton Rouge they are in alphabetical order, because of the great number of landings on the coast, and below the mouth of Red River (where the State of Louisiana is on both sides of the Mississippi River), places are designated thus: E. S. for east side, W. S. for west side.

Besides adding to my River Directory the landings on *all* navigable rivers and bayous, I have published a tariff of premiums on insurance to all points from St. Louis. Also, from New Orleans to points tributary to that city. I have made St. Louis the central or starting point for all distances and rates of insurance premiums, because she occupies a position which is so near the centre of the Mississippi Valley.

FRANK M. CAYTON.

BLACK RIVER, LA.

See Ouachita River.

RIVER CLAUSES, RULES AND REGULATIONS.

RETURN PREMIUMS ON CARGO, VIZ:

Where goods are insured to a certain point, and no premium has been paid for the privilege of storing, and are prevented from reaching their destination from suspension of navigation, one-half of one per cent. shall, in all cases, be added to the place where the risk ends, and the difference to be returned, no loss being claimed.

STORING AND RESHIPPIING, VIZ:

When the privilege of storing and reshipping is inserted in the application, any point or points up river from New Orleans, one-half per cent. additional premium to be charged, whether used or not, and no return of premium to be allowed.

Storing at termination of risk, $\frac{1}{2}$ per cent. per month in brick warehouses.

Storing at termination of risk, $\frac{3}{4}$ per cent. per month in wooden warehouses.

Storing at termination of risk, 1 per cent. per month on whariboats.

Freight Lists of steamboats shall only be insured for one-half of the amount of actual Freight List, by adding one-fourth per cent. to usual cargo rates.

Cargo shipped up stream on steamers, and re-shipped on keel boats (not to be towed by steam), in all cases half per cent. additional to be charged.

This Insurance shall not cover cotton or other property shipped on board any steamboat which shall not hold the certificate of the Inspectors of Hulls employed by the Underwriters of New Orleans, St. Louis, Cincinnati, Louisville or Galveston, dated within the twelve months preceding the shipment, declaring her seaworthiness and fitness to carry cargo in the trade in which she is engaged; and it is hereby agreed that any boat or craft crossed, from any cause, by the Inspectors of the Board of Underwriters of New Orleans, St. Louis, Cincinnati, Louisville or Galveston, and by their approval shall be deemed unseaworthy, and insurance shall not attach on cargo by her until said boat or craft shall be restored.

MACHINERY CLAUSE.

In case of loss or injury to any part of a machine or vehicle, consisting, when complete for sale or use, of several parts, the Insurers shall only be liable for cost of the part lost or damaged, unless it shall amount to more than one-half the insured value of such machine or vehicle.

Lime Risks down stream, three per cent.

A rebate of not exceeding fifteen per cent. may be allowed to Insurers in lieu of scrip or other participation in profits, when preferred.

Cotton purchased in Memphis, Tenn., and in course of shipment to New Orleans for reshipment to other ports may be covered for three days against fire, without any addition to the regular river premium, but only to the extent of the advances made by the purchasers.

Not less than twenty-five cents premium shall be charged on any risk.
